

# Nutritional Therapy Services Discovery Kit

Roxie Daggett, NTP

Welcome! I'm so glad you want learn more about my Nutritional Therapy Services. I developed this kit to give you an overview of my unique nutrition work and how it might benefit your health and longevity. Let's get started!

**Disclaimer:** As a Nutritional Therapy Practitioner (NTP), I do not diagnose or treat disease, but instead I make nutritional recommendations for balancing the body and promoting optimal wellness. My services and writings are centered in functional, holistic nutritional therapy and are not intended to replace any professional medical advice, medical services or prescription medications. The information provided here and on my website has not been evaluated by the Food and Drug Administration (FDA) and is not intended to diagnose, treat, prevent or cure any disease. ALWAYS consult with your doctor or pharmacist about any changes you wish to make to your treatments, medications or nutrition. Nutritional therapy can be a terrific addition to your overall wellness program!

In this kit you'll discover:

- **Why nutritional therapy?**
- **My nutrition philosophy**
- **My process and assessments**
- **My packages and pricing**
- **Payment plans and discounts**
- **Common Q & A**
- **How to get started!**

## Why nutritional therapy?

There is no shortage of dietary and nutrition advice out there. In fact we are inundated with information about the best and worst ways to eat... and it seems to be changing daily! The endless stream of nutrition tips, food pictures, posts and articles can be at once inspiring, annoying and confusing!

It's hard to know where to begin!

Nutritional therapy helps you move past all the noise. We focus on discovering YOUR personal nutrition needs. This process includes a trio of functional, holistic nutrition assessments that enable us to work together to create a **customized nutrition plan designed just for YOU**. It tells us where to begin filling in your nutrition gaps so you are no longer playing a guessing game.

**Let's talk about how we create this personalized nutrition plan.**

## My Nutrition Philosophy: Nutritional Detective at Work

I always love a good mystery. Functional, holistic nutrition enables me to work with motivated clients who are ready to put together the puzzle pieces of their nutrition story in order to uncover and address root cause nutrition needs.

This gratifying, in-depth work can have impacts on other areas of your health and longevity. It's exciting!

But it doesn't happen overnight. As stated on my website, my approach to nutritional therapy is summed up in two words:

**investigation and communication!**

Whether we work together for only a few sessions or you opt for a longer program, my focus will be on spending sufficient time communicating with you to understand your needs and ensure you feel supported along the way.

I also spend a lot of time outside of our sessions researching your unique nutritional issues. This enables me to make evidence-based recommendations and adjustments throughout the process. I am a bit of an **OCD nutrition nerd** so I enjoy the opportunity to take a deep-dive into anything that gets me curious. I search long and hard for answers and usually don't stop until I feel I have good information to share.

I look forward to discovering YOUR nutrition story together!

### Foundational Work

There are 5 nutritional foundations that we'll be focusing throughout your process.

These include:

- **Digestion**
- **Blood Sugar Regulation**
- **Fatty Acid Balance**
- **Mineral Balance**
- **Hydration**

**These foundations cannot be underestimated** and often have powerful downstream affects on your hormones, inflammation levels, energy, sleep, moods, weight and more! Again, we'll work closely together to figure out where to start and come up with a plan that is do-able for YOU.

While I do not subscribe to any one-size-fits-all diet programs, I do believe that nutritional healing is best accomplished through a **properly prepared, nutrient-dense whole foods diet**. In other words, I believe in real food that humans have thrived on for generations. Exactly which foods will work for your bio-individual needs is part of the mystery we will to solve together!

# Nutritional Therapy Process & Assessments

In order to do this in-depth nutrition work together we will go through the following process:

1. **Free 20-minute Discovery Session:** This step is required for any prospective client. It helps us get to know one another, understand your health goals and make sure we are a good fit. If we decide to move forward I can help you select a package best suited to your needs and goals. If for some reason I don't feel my services are right for you, I will happily make good referrals. I want you to get exactly what you need whether it's from me or from someone else!
2. **New Client Welcome Packet:** This packet provides the hands-on pieces for becoming a nutritional therapy client. The process is in-depth and includes several assessment tools with instructions. Here is an overview of this packet:
  - a. **Disclaimer:** Explains my scope of practice as a Nutritional Therapy Practitioner (NTP), your role as a client & my privacy policy. You must sign and date this before we begin working together.
  - b. **Initial Interview Questionnaire:** This holistic questionnaire includes everything from your health history to your current food, sleep and exercise habits. The more information you can provide me, the better. We will go over this in detail during your first interview.
  - c. **Food & Mood Journal:** 3-5 day journal (in a format provided by me) to help me get a picture of your current food, mood, activities and digestion. No need to be impressive here—just jot down all the details as best you can!
  - d. **Nutritional Assessment Questionnaire (NAQ):** An online link to a 300+ question functional nutrition survey, which will help us see symptom patterns and pinpoint where your greatest nutritional needs lie.

*I do realize this is a lot of work up front for you as a client, but each piece is absolutely necessary for you to get started on a meaningful wellness journey together.*

3. **1.5 Hour Functional Nutrition Interview:** This is our first online nutritional therapy session together. I conduct a detailed interview that correlates to your paperwork. This helps me fill in the details and get clarity on your health history, current concerns and wellness goals. I also provide feedback on your Food & Mood Journal, review the results of your NAQ and provide initial nutritional recommendations. It's jam-packed and productive! Take notes!
4. **45 Minute Follow Up Sessions:** In these sessions we spend time reviewing your progress and challenges. This allows us to make adjustments and plan your next steps. We also do comparative analyses of NAQs and Food Journals over time so you can see your progress.
5. **Weekly Check-ins:** In order to make sure you are fully supported, we'll pick a day and time during our off-weeks to check in via text or email.
6. **In Depth Research:** I use my own time to study your unique health concerns as they relate to current nutrition research. This enables me to provide you with up-to-date, evidence-based and personalized nutritional therapy recommendations.
7. **Referrals:** At times I may find an issue that is outside of my scope of practice as a NTP. Therefore, I may refer you to someone whose services I feel would greatly benefit you while we continue to work on nutritional therapy together.

# Nutritional Therapy Packages & Pricing:

## Package 1: Foundations for Optimal Health

Packages are ideal for those who are ready to go all-in for **long-term health**. Two months is a minimum time to experience optimal results-- though you may experience changes sooner. Check out the options below!

### Package 1 ~ Foundations for Optimal Health: 8 weeks

*During this 8-week program we will work closely together to discover your foundational nutritional needs--key areas that may be holding you back from optimal health. From there we will create a customized nutrition plan that we'll start together and you can carry into your future!*

#### Who is this program for?

This 8-week package is ideal for clients who are ready to discover and take charge of root cause nutritional issues that may be related to ongoing health concerns such as: fatigue, sleep disturbances, hormone imbalances, mood issues, weight issues, joint pain, or other health complaints. Also perfect for those who just want to feel better by optimizing their nutrition. If you are ready for change, but not sure where to start, this program is for you!

## Add-On Menu

### Pantry & Fridge Detox and Restock

1-hour pantry and fridge detox session to help you discover hidden ingredients and foods that may be working against your health goals— even if the label says “healthy” or “all-natural.” Learn how identify truly nutrient-dense foods and restock your kitchen with confidence. Conducted virtually via Zoom video chat in your kitchen!

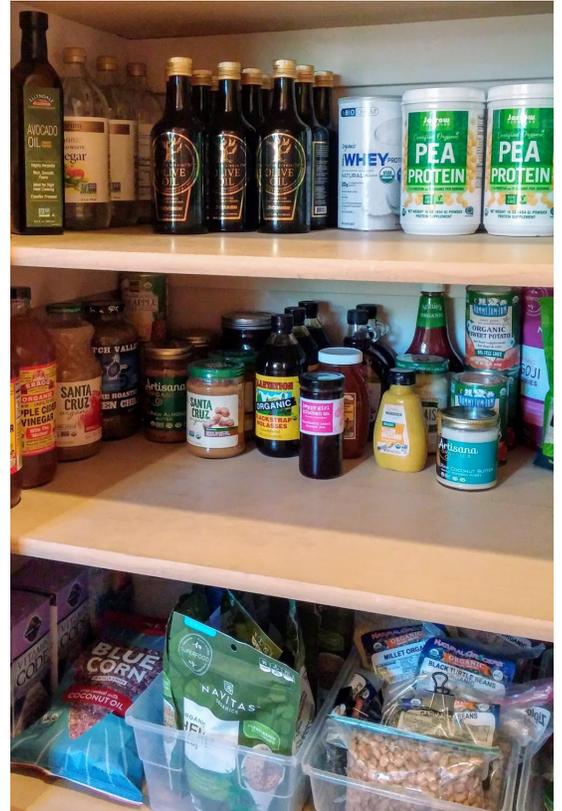

#### What's included?

- Lists to help you locate hidden sugars, unhealthy/rancid fats, and chemicals buried in ingredient labels
- Holistic nutrition counseling and timeline to help you evaluate what to lose now and what to can go later
- Customized food sourcing lists: local and online grocery stores, local and online health food stores, healthy restaurants/prepared foods in your area, healthy online prepared foods, local Farmer's Markets schedules and locations, local farms and community gardens who sell fresh produce

#### Who is this for?

The pantry and fridge detox and restock is ideal for those who need coaching in letting go of nutrient poor foods that are not in line with their health goals and finding healthy replacements. This can be an emotional process and sometimes you just need a jump-start to get it done and move forward! I'd love to help you with this!

## Payment Plans & Discounts

Nutritional therapy is a short-term investment in your long-term health. My goal is to work intensively together for a season so you can carry a new awareness and life-changing nutrition habits into your future!

I realize how out-of-cost wellness expenses can add up. I've created payment plans on my nutritional therapy packages for those who need this option. The payment plans on packages are as follows:

- **Package 1 ~ Foundations for Optimal Health: 8 weeks**  
\$649 in full or 2 monthly payments of \$325
- **Package 2 ~ Optimal Digestion Reset: 12 weeks**  
\$949 in full or 3 monthly payments of \$317

I do not offer payment plans for stand-alone sessions on the a la carte menu or for add-ons.

## Common Q & A

### Do you accept or submit to insurance?

Nutritional therapy services are not covered by insurance carriers at this time. Unfortunately, I am not able to provide you with superbills to submit to your insurance company, but I will provide you with invoices and receipts for all services.

### Do you offer payment plans?

I offer payment plans for Nutritional Therapy packages only. I realize these can be a lot to cover up front so I'm happy to offer monthly payment plans if needed. Let me know if you'd like me to set this up for you!

### Do you offer discounts?

At this time I do not offer discounts due to the time-consuming nature of functional nutrition detective work.

### Do you have a weight loss program?

I don't have a specific weight loss program nor do I intend to at any point, but weight loss is often an outcome of finding a nutritional therapy protocol that works for your body. The real success is best measured in restored energy and vitality!

### Can we meet in person?

Currently all nutritional therapy services are virtual and online only via live Zoom sessions. This means we can meet anywhere convenient to you!

### How time consuming will this be?

Nutritional therapy is tailored to YOUR needs and can be as involved or as basic as you need it to be for your lifestyle. We will work together to find out what works best for you so that you can keep it up with success!

## How to get started?

If you want to get started or ask more questions about nutritional therapy, get in touch with me to set up your **Free Discovery Session!**

This is a 20-minute complimentary session via phone or Zoom video chat to see if we are a good fit! This session is a prerequisite for all prospective clients; there are no obligations tied to this meeting. It's simply a chance for us to get to know one another before embarking on your nutritional journey!

During this time we'll talk about your current health goals and I'll share more details about my functional, holistic nutrition process. I'm happy to answer any questions you may have! If we decide to move forward together I'll help you select a package that will best meet your needs. And if you aren't ready for a package we can start with a stand-alone session and take it from there. We can also talk about payment plans, commitments and anything else that you'd like to cover. If we decide we aren't a match at this time in your health journey, I'm happy to provide you will referrals for what you are looking for!

I can't wait to talk to you!

I am currently accepting new clients. Please email me to schedule your **Free Discovery Session** at: [roxie@nourishandcherish.com](mailto:roxie@nourishandcherish.com)
